

The **GIANT** In Technology

Where We Began

Professional Services is a technology firm based in Nyeri, Kenya that began in April of 2020.

Professional Services is the entity in Kenya that was begun with an idea from Matt Turner, Managing Partner of THH, LLC, a technology firm located in Alpharetta, GA.

Professional Services was founded to impact the lives of the people in Kenya by giving them opportunities to grow, thrive, and give back.

Started in **2020** with 3 employees supported by two individuals from GRIFFIN to have three separate areas within JITU – Technology, Professional Services and Training

How We Operate Now

- GRIFFIN Global Technologies – includes our US and Kenya teams working together to support our clients.
Around **250** people strong now! We all have griffinglobaltech.com email addresses.
- Professional Services – works with clients who are looking for support in helpdesk, accounting, customer service and other back-office or support type roles. Around **55** people.
- Customer Service Bootcamp – separate, not for profit entity that is focused on providing real world training for gainful employment and personalized mentorship for students.

- Be available for meetings. Be punctual!
- Communicate timely on blockers/sick/unavailability

A large group of approximately 30-40 people of various ages and ethnicities are posed on a wide staircase. Many are waving their hands. In the center of the group, an acoustic guitar is placed on the floor. The scene is bright and cheerful, with a semi-transparent green overlay on the left side containing the text.
